Data Source: Rob Paral & Associates' estimates derived from the 2010-11 American Community Survey (US Census) and 98th General Assembly, Illinois State Board of Elections. Data research funded with generous contribution from the Lloyd A. Fry Foundation.

Data Notes: "Newly Eligible for Medicaid" is defined as uninsured adults (ages 18-64) who have incomes below 138% FPL. Estimates include those who might be eligible for Medicaid now but are not enrolled and undocumented immigrants, who are not eligible for Medicaid or insurance products in the new health exchange. For data questions, please contact Stephani Becker, Health & Disability Advocates: 312.265.9072 or sbecker@hdadvocates.org.
