

## Medicaid Redetermination Data

### I. Case Level Maximus Related Redetermination Activity Summary (reflects month in which action was taken)

<i>State Decision</i>	<b>February</b>	<b>March</b>	<b>April</b>	<b>FY15</b>	<b>FY15 Percent</b>
Continue	17,282	29,177	28,950	263,544	44%
Change	5,673	9,373	7,503	73,521	12%
Cancel	19,419	33,250	44,549	263,638	44%
<b><i>Reason for Cancellation</i></b>					
% Lack of Response	75%	83%	83%	81%	
% Other	25%	17%	17%	19%	
<b>TOTAL</b>	<b>42,374</b>	<b>71,800</b>	<b>81,002</b>	<b>600,703</b>	

### II. Summary Case Level Activity for all Redeterminations

	<b>February</b>	<b>March</b>	<b>April</b>	<b>FY15</b>
Total W/ Maximus Involvement	42,374	71,800	81,002	600,703
Continuation/Change	22,955	38,550	36,453	337,065
Initial Cancellations	19,419	33,250	44,549	263,638
Total W/o Maximus Involvement	60,590	81,374	105,353	725,839
Continuation/Change	47,926	66,932	84,009	586,319
Initial Cancellations	12,664	14,442	21,344	139,520

### III. Individual Level Cancellation Data

	<b>February</b>	<b>March</b>	<b>April</b>	<b>FY15</b>
Total Initial Cancellations	57,884	80,703	98,797	692,283
Return from Cancellation	17,866	17,547	10,822	238,025
Net Cancellations	40,018	63,156	87,975	454,258
% persistent after 1 month	83%	85%	89%	
% persistent after 2 months	74%	78%	---	
% persistent after 3 months	69%	---	---	

#### NOTES:

Maximus system data based on May 4, 2015 data extract; EDW data based on May 1, 2015 extract.

Data covers fiscal year 2015 of IMRP, which started in July, 2014. Attribution to a month reflects the month in which decision was made, not necessarily the month in which the decision was effective.

Notes on individual sections follow:

I. Case level data from Maximus system

a. There are small fluctuations in determinations completed for previous months due to determinations completed retroactively

II. Case level data from both Maximus system for those cases in which Maximus was involved (primarily cases without benefits in addition to Medicaid) and from EDW for those in which Maximus was not involved (cases with other benefits in addition to Medicaid). Lower cancellation rate for clients who have additional benefits (primarily SNAP) reflects the fact these clients return information more promptly because the loss of food support is much more immediate. Medicaid tends to be regarded as a benefit accessed when needed. (For the same reason, the more a client uses Medicaid, the more likely information will be returned promptly.)

III. Data is at individual level from EDW. Table shows that a significant number of clients return to the rolls, some of them fairly immediately when they present required information
